Introduction

About Acorus

Acorus produces products in Lithuania, where long-standing traditions and innovations intertwine. Our company has extensive experience in manufacturing a wide range of products, such as herbal products and food supplements. We are dedicated to creating the highest quality herbal products by combining long-lived traditions, deep knowledge, perfected production processes, and the necessity of innovations. As a modern company, we are remaking and redesigning the traditional herbal recipes into more suitable and effective for nowadays people. Our pharmacists and herbalists are constantly experimenting and exploring new effective solutions, undiscovered rich flavors, and various supplement mixes for everyday use.

WHAT MAKES OUR PRODUCTS UNIQUE?

Well balanced ingredients from nature

Nature holds the strongest, most active, and body beneficial materials, therefore we carefully selected ingredients that go into products.

Convenient form of usage

Lot of various usage forms – powder in sachets, loose powder to ensure product intake by yourself, liquid shots, gummies and snacks.

High quality product

Created by experienced pharmacists and herbalists by following high GMP standards and using innovative technologies.
