

INFORMATION ABOUT THE FACTORY

CRYSTAL DISTILLERY is an alcohol factory in Estonia, known precisely for its rich half-century-long history and traditions.

The company aims to produce high-quality, environmentally friendly non-alcoholic beverages using the purest water from an artesian well. Some products use molecular technology, allowing the maximum quality of drinks and avoiding adding chemical substances.

CRYSTAL DISTILLERY holds all necessary licenses, including Scotch Whisky bottling and blending. Our mission is to create something new - a world with new high-quality, pure alcoholic beverages.

MOLECULAR TECHNOLOGY

CRYSTAL DISTILLERY LTD is an amazing company that has developed molecular technological process for producing high-quality, environmentally friendly alcohol.

Molecular technology allows you to preserve the quality of alcoholic beverages, significantly reducing the time for their production, and the process looks like this:

- A specific drink is carefully examined and analyzed to determine the required molecular fingerprint.
- Then we collect essential flavor and aroma molecules from resource-efficient natural sources: water, trees, plants and fruits, test them with ingredients and repeat the process in the laboratory.
- Finally, the created product is a clean and unique environmentally friendly alcoholic beverage.

MOLECULAR TECHNOLOGY

Today, the CRYSTAL DISTILLERY LTD team is working on a revolutionary technological process to create its unique brand using molecular technology; the quality of the products is recognized even by true elite alcohol connoisseurs. Our mission is to create something new The world of new high-quality, with pure alcoholic beverages.

GLENALADALE

BLENDED SCOTCH WHISKY RED EDITION

- **AROMA:** Vanilla, caramel, nuts, malt and oak barrel notes.
- **TASTE:** Smooth and mellow, beautifully combined - nutty sweetness and a delicately proportioned layer of caramel and honey.
- **FINISH:** Gentle and aromatic with a lingering aftertaste of warm spices. Goes well with red meat, poultry and cheese.

 ALCOHOL CONTENT: 40%

GLENALADALE

BLENDED SCOTCH WHISKY BLUE EDITION

- **TASTE:** Smooth and mellow, beautifully combined elements - nutty, with added floral sweetness, pear, citrus and a delicate layer of vanilla with caramel.
- **AROMA:** Balanced fruity bouquet layered with rich caramel with hints of light vanilla.
- **FINISH:** Delicate and full-bodied, with the freshness of floral notes and a caramel taste. Suits well with game, veal and seafood.

 ALCOHOL CONTENT: 40%

GLENMORAH

BLENDED SCOTCH WHISKY

- **AROMA:** Pleasant, light with fresh fruit and dates, aroma of cinnamon and chocolate.
- **TASTE:** Gentle, soft fruit, chocolate, caramel and with a touch of vanilla.
- **FINISH:** A pleasant taste experience of Scotch whisky with fruit and tinged with a touch of dates. Suits well with nuts and fruits.

 ALCOHOL CONTENT: 40%

WOODENGLLEN

BLENDED SCOTCH WHISKY

- **AROMA:** The expressive aroma of cherry with a pit is abundant in notes of ripe apple, through which delicate nuances of vanilla and caramel are perceived.
- **TASTE:** The exquisite taste of smooth and delicate Scotch combines sweet cherries, dried fruits, and apples with gentle hints of vanilla and oak wood, culminating in a long and pleant aftertaste.
- **FINISH:** Scotch Whisky is enjoyable both as a standalone drink and as an accompaniment to fruits and bitter chocolate, with a well-structured aftertaste.
